

Sending lithium batteries overseas safely and securely

Updated by Jan 2024

FedEx Ship Manager™ at fedex.com

If your shipment contains Section II lithium batteries (Excepted Lithium Batteries or “ELB”), please tell us by selecting **Lithium Batteries** when entering package details.

1. Go to **Package details**: select “Add non-standard packaging, dry ice or lithium batteries” and then, select “Lithium batteries”.
2. Choose one of the Section II type batteries listed that best describes your shipment: PI966/ PI967/ PI969/ PI970.
3. In addition, please use one of the IATA compliance statements (shown on the right) as the **Item Description** for your Section II lithium batteries.

FedEx Ship Manager™ - Software version (also known as “Global Ship Manager”)

Pop-up windows:

The screenshot shows the FedEx Ship Manager software interface. The main window displays the 'Special Handling' section with a list of options. The 'Lithium Batteries/Cells' option is selected and highlighted with a red box. A red text overlay reads: "3. Select 'Lithium Batteries/ Cells', then 'Edit & View'". Below this, the 'Lithium' pop-up window is shown, which contains a list of Section II type batteries. A red text overlay reads: "4. Choose one of the Section II type batteries for your shipment." The list includes: Ion Packed with Equipment (UN3481, PI966), Ion Contained in Equipment (UN3481, PI967), Metal Packed with Equipment (UN3091, PI969), and Metal Contained in Equipment (UN3091, PI970). The 'OK' button is highlighted.

3. In the pop-up window of “Special Handling”, select “Lithium Batteries/ Cells” and then click on the “Edit/View” button.
4. Choose one of the Section II type batteries listed that best describes your shipment: PI966/ PI967/ PI969/ PI970.

In addition, please include one of the IATA compliance statements on your air waybill for Section II lithium batteries:

1. Lithium ion batteries in compliance with Section II of PI966
2. Lithium ion batteries in compliance with Section II of PI967*
3. Lithium metal batteries in compliance with Section II of PI969
4. Lithium metal batteries in compliance with Section II of PI970*

*Important note: The IATA compliance statement is **not required** on the air waybill for packages prepared in accordance with Section II of PI967/PI970 (Lithium batteries contained in equipment) under either of these conditions:

- Packages contain only button cell batteries installed in equipment (including circuit board); or
- Consignment contains two (2) packages or less where each package contains no more than four (4) cells or two (2) batteries installed in equipment. (Also known as “4 cell 2 batt”)
