CUSTOMS CLEARANCE

How we work with you to clear goods through customs

Ship across borders with confidence by relying on our expertise to deliver an efficient clearance process.

Did you know that FedEx provides clearance services for all international shipments? Clearance can be complex but, thanks to our local specialists with long-standing customs experience, we can ensure that customs entries are accurate and compliant with regulations. We can also help with the completion of customs documentation, and calculate the payment of duties and taxes.

If the paperwork you've provided is accurate and the goods comply with regulations, then the package is cleared by the customs authorities and FedEx can usually act as the customs broker/agent.

If the goods are not compliant – or if further information is needed – our brokers and specialists will work closely with you to ensure your shipment clears customs as quickly as possible.

How we deliver fast, reliable e-commerce

Speedy deliveries worldwide

Impress your customers with a wide choice of premium, express and standard economy services across Europe and the world – including **FedEx® International Connect Plus**, our day-definite e-commerce delivery service.

Convenient deliveries for your customers

FedEx Delivery Manager® sends your customers notifications by SMS or email – and they can customise their delivery date and location at no extra cost. They can also choose to pick up their package from one of 260,000 convenient FedEx locations worldwide.¹ We now provide picture proof of delivery for residential shipments released without a signature in Europe, U.S. and Canada. With visual confirmation of delivery, you know exactly where your package was left.

Simplified returns

Our automated returns process gets goods back fast for refunds and restocking. **FedEx® Global Returns** lets your customer schedule pick-ups or drop-offs at a convenient location – with Reusable Paks helping them make simple returns.

Easy connectivity

Our range of e-commerce software and solutions enables fast, seamless access to FedEx shipping services. Connect your Shopify, BigCommerce or WooCommerce store to automatically pull order details and create shipments with **FedEx Ship Manager™**, use **FedEx APIs** to integrate FedEx solutions into your own software, or use third-party **FedEx® Compatible** solutions from leading software providers to enable FedEx services on your web shop.

Customs expertise

Cross borders seamlessly with our customs-cleared products, simple-to-use **documentation tools**, and experienced personnel around the world.

¹ Some FedEx locations are operated by independent third parties in cooperation with FedEx.

E-COMMERCE

Boost your e-commerce sales

From offering flexible delivery options to reaching more customers across the globe, we can help you get e-commerce right.

We understand how important it is to exceed your customers' expectations with every delivery. Our aim is to convert clicks into customers and returns into loyalty.

Sustainability and innovation

We're committed to delivering a more sustainable future through innovative technologies and a goal of carbon-neutral operations by 2040.

Our sustainability goal	19
Innovation in action	20

We are updating our pick-up, delivery and last-mile fleets with the newest innovative technologies, including readying six facilities to support widespread use of electric vehicles.

“Our ambitious sustainability goals demonstrate how a company of our size and scale can shape a low-carbon economy, one that drives prosperity and future growth for all. At all levels of FedEx, our team is actively engaged in this transformation and working to realize our vision of a more sustainable logistics industry.”

- Raj Subramaniam, President and CEO

OUR SUSTAINABILITY GOAL

How we're helping to deliver positive change

As a company that connects 99% of the world's GDP, we're taking bold steps to help the only home – and place of business – we've got.

We're heading towards a more sustainable future with a goal of carbon neutral operations by 2040. Priority Earth is our initiative to get there.

Our Reduce, Replace, Revolutionise approach continues to guide our strategy to reduce the environmental impact across our aviation and vehicle fleet, and in our facilities and materials.

We're also designating more than \$2 billion of initial investment in vehicle electrification, sustainable practices, and carbon sequestration.

INNOVATION IN ACTION

Discover some of our sustainability initiatives in Europe – and around the world

**In the air**

We've modernised our air network in Europe, adding six ATR turboprops - the most fuel efficient regional aircraft - to our fleet.

**On the ground**

We're piloting new last-mile solutions for greener deliveries, with 105 electric cargo bikes on the roads in 21 cities in eight European countries.

**In our facilities**

All new FedEx facilities in Europe receive LEED/ BREEAM sustainability certification. Paris Charles de Gaulle (CDG) airport, our main European hub, became the first site to receive ISO 14001:2015 certification. Here over 97% of standard waste is recovered, over 80% of ground vehicles run on liquefied petroleum gas (LPG) or electricity, and 300m² of green roofing helps purify the air.

Helping you to understand and report on your emissions

You can access information on the emissions from the transport of your packages, enabling you to make smarter decisions regarding service selection, track progress towards emissions reduction goals, and more.

Ready for what's next?

We're happy to answer any questions you may have about how we can take your business further. With our wide range of services, extensive global knowledge and dedicated team, we can help you grow – every step of the way.
