## Guam

### Fuel Surcharge

The surcharge percentage is adjusted every Monday, based on the US Gulf Coast Jet Fuel Index, and this percentage is applied to the total transportation charge (go to <https://www.fedex.com/en-gu/home.html> for the prevailing fuel surcharge rate and a sample calculation).

### Demand Surcharge

During times of elevated shipping volumes, heightened demand for capacity, increased operating costs, and other strains on our network, FedEx may assess a Demand Surcharge.

## Weight Information

Total shipment weight is unlimited. The maximum weight per package may be adjusted. Please contact our Customer Service team or Sales team for details.  
Rates are calculated on the total weight of all packages on one international air waybill. Any fraction of a pound is rounded up to the next higher weight break. Such rounding may cause a variance in dimensional weight (volumetric weight) calculations. Please note that the rates stated on FedEx's invoice shall be the final and official rates.  
Additional charges may be assessed for shipments below a certain weight density. The dimensional weight (volumetric weight) (in lbs) of an International Priority Express/Priority/Economy shipment is calculated as follows. Please contact our Customer Service team for details.

$$\frac{\text{Length} \times \text{Width} \times \text{Height (inches)}}{139}$$

A minimum billable weight of 2 lb applies to FedEx Small Box, FedEx Medium Box and FedEx Large Box; and a minimum billable weight of 9 lb applies to FedEx Tube.

Shipments in FedEx packaging may be subjected to dimensional weight pricing.

In the case of multiple-piece shipments, the invoice weight will be the sum of the higher actual weight or dimensional weight of each individual package.
