FedEx International Priority[®] Freight

Makes light work of your heavyweight
shipments

With FedEx International Priority Freight you get the full advantage of our many years of experience in shipping Express Freight consignments.

We cover more countries than ever – exporting to over 130 countries and importing from more than 110 countries – while delivering even earlier to various destinations⁽¹⁾.

Our worldwide network of shipping specialists can call upon a fleet of FedEx freight aircraft, you can rely on us to deliver your urgently-needed export and import goods quickly, safely and securely – each time, every time.

FedEx International Priority Freight

Is a dedicated, specialized service designed for all your express heavyweight or bulky international consignments weighing between 68kg and 1,000kg per item. Whether your goods are on pallets or packed in crates or multiple boxes, you benefit from:

- An express, time-definite, Customs-cleared service.
- Fast transit times (see the table below).
- Fast, real time online tracking via fedex.com/za – you can follow the progress of your shipment 24/7, from collection right through to final delivery, including the time it is delivered and the name of the recipient⁽²⁾.
- Door-to-door, door-to-airport, airport-to-airport, or airport-to-door options. We have pick-up and delivery services tailored to meet your exact needs.

Simple, easy-to-use booking process:

1. Book your shipment through Freight Customer Service and receive your booking number.
2. With your FedEx account number, use our online shipping tools at fedex.com/za to complete your shipping paperwork and Air Waybill.

Transit times⁽³⁾

Your destination/origin	Export time
USA	4 - 7 days
Canada	5 - 9 days
Europe	4 - 7 Days
Latin America	4 - 7 Days
Asia, Middle East & Africa	3 - 6 days

Whatever you export or import, take it easy with FedEx.

Just book space in advance on the flight of your choice. We'll do all the rest for you.

Your goods will be delivered safely and on time – and you'll have complete peace of mind.

The only thing you need to do is follow our simple FedEx International Priority Freight packing and weight specifications. Key requirements include the following:

- In order for your shipment to be loaded into our aircraft it must be capable of being handled by forklift and packaged to allow for stacking of other products on top. It must also be banded and shrink-wrapped to the pallet, with the bands running in both directions.
- Weight limit per item: 68kg to 1,000kg.
- Charges may be based on dimensional weight in kg per item which is calculated by Length x Height x Width in cm divided by 5,000.
- The maximum permitted dimension per item is Length 302 x Width 203cm x Height 178cm.
- A minimum weight of 68kg/item is applied for billing.
- Multiple skids (holding up to 9,998 items but no more than 10 commodities) can be shipped on a single Expanded International Air Waybill or automation device label.

FedEx can provide you with invaluable advice and detailed guidance on how to pack and ship your goods to ensure they always arrive safe and secure, just as they left your premises. Just contact your Account Executive for more information.

- (1) Subject to Federal Express Conditions of Carriage for Europe, The Middle East, The Indian Subcontinent and Africa
(2) Delivery options are available. Please contact FedEx Customer Service for further details.
