FedEx ®

Solution Overview

Global Parcel / LTL shipping solution for SAP Ecosystem (ECC, EWM and TM)

XPS, an SAP Certified solution, automates the end-to-end process from carrier and service level selection through label printing, manifesting and tracking from pickup to POD.

XPS is a Built-In SAP, multi-carrier, solution for automating the Parcel and LTL shipping process for SAP ECC, S/4HANA, SAP EWM and SAP TM. The solution also supports SAP customers running 3rd party WMS and TMS systems. This SAP Certified solution helps companies drive efficiencies and reduce costs in their outbound processes by automating the packing and shipping tasks from carrier and service level selection, to printing labels, manifesting and tracking. XPS is installed globally and designed to support shipping requirements across any industry. Shipping points include, warehouses, DCs, mail rooms, 3PLs, E-Commerce, etc. Since the solution is built in SAP, it delivers this robust shipping functionality from within standard transactions so end users do not have to change systems to pack, ship, or track their orders.
