

Solution Overview

PathGuide’s Latitude Manifest & Shipping System is a parcel shipping integration system that simplifies warehouse shipping, package tracking and route management. This software provides a multi-carrier shipping solution that automatically finds the lowest available shipping rate (or fastest option for those rush orders) from all available carriers.

Flexible and affordable, Latitude Manifest & Shipping System provides multi-carrier compliance whether you ship with major international carriers, regional carriers, or LTL. This software is highly customizable and has a rules-based rate and handling charges engine. Print hazmat or e-commerce labels, bills of lading, and third-party shipping papers; all data is automatically transmitted to the appropriate carrier for billing.

Quick Facts:

Solution Type	Warehouse Management
