

# Solution Overview

Varsity Logistics offers a comprehensive shipping solution for users of IBM i (AS/400) Power Systems that helps businesses streamline their shipping operations.

ShipSoft, Varsity's core solution, can help automate and optimize the entire shipping process. This includes capturing accurate package weights, rate shopping for the most competitive shipping costs across all carriers and generating compliant electronic labels. By eliminating manual data entry, ShipSoft helps streamline workflows, which can improve accuracy and efficiency throughout the entire shipping lifecycle.

Beyond core functionalities, ShipSoft provides a suite of additional modules for enhanced control and visibility. These modules offer features for pack verification, vendor compliance, routing optimization, containerization, and advanced shipment optimization. This comprehensive suite can help businesses minimize costs, maximize efficiency, and gain more control over their multi-carrier shipping environment.

## Quick Facts:

<b>Solution Type</b>	Transportation management
