Except as otherwise provided, if different articles are shipped in the same package, the rate for the highest-rated article will be charged for the entire package. 2. Dimensional weight in pounds is calculated by multiplying the total cubic feet of the shipment by 1,728 then dividing by the dimensional weight factor. The final dimensional weight will be rounded up to the next whole pound. 420 CARRIER LIABILITY UADV, ELCP, ELCC

- 1. Carrier shall not be liable for any loss or damage to a shipment or for any delay caused by an act of God, the public enemy, the authority of law, the inherent vice of the goods, or the act or default of Shipper. The burden to prove freedom from negligence is on the Carrier or the party in possession. In no case will Carrier be liable for any type of consequential, special, indirect, or exemplary damages, including but not limited to loss of income or profits, regardless of whether or not Carrier knew or should have known that such damages might have been incurred.
- 2. Customer shall, at its cost and expense, comply with all applicable federal, state, local, and international laws, rules, and regulations pertaining to its shipments and shall be responsible for all costs, liabilities, delays, fines, and expenses caused by, resulting from, or otherwise associated with any noncompliance by Customer or Customer's shipments with any such laws, rules, or regulations. Customer shall also be responsible for Carrier's charges pertaining to any services performed by Carrier at Customer's request for compliance with any such laws, rules, or regulations.
- 3. Requests to add or change the valuation of any shipment will not be accepted, except as noted in paragraph 5.A herein.
- 4. Whether new, used, or reconditioned articles and regardless of NMFC released, declared, or actual value provisions, Carrier's liability for any shipment loss, damage, or delay shall not exceed the lesser of the actual value or the applicable liability limitations referenced in this tariff Item 420.
- 5. Items described in the NMFC and shipped under released value provisions will be subject to the maximum released value depending on the class listed at the time of shipment.
 - A. When the NMFC offers Consignor or Consignee the option to declare an actual, declared, or released value on the Bill of Lading, and such valuation is not declared by Consignor or Consignee and the shipment is inadvertently accepted by Carrier, charges will be assessed based on the wording of the applicable NMFC item covering the shipment.
 - 1. On shipments that are classed based on value, either actual, declared, or released, and the NMFC does not advise within the item or its notes how to rate a shipment when such value is not present on the Bill of Lading, Carrier will rate at the highest class provided within the item at a maximum liability not to exceed \$5 per pound.
 - B. When a Freight, All Kinds (FAK) class or an Exception class rating is provided in any tariff governed by the provisions of this tariff for a commodity that has available declared or released value provisions in the NMFC to obtain a lower class, the commodities are released to the lowest declared or released value provided in the NMFC, regardless of the shipment weight or whether rated truckload, LTL, minimum charge, or absolute minimum charge.
- 6. In lieu of the valuation indicated in the NMFC, valuation, rates, and charges on used or reconditioned articles will be as follows:
 - A. When Consignor or Consignee declares no value or declares an actual or released value of 50 cents or less per pound per package or fails to describe articles as used or reconditioned on the original Bill of Lading:
 - 1. Apply 100% of Customer's otherwise applicable charges as published in tariffs subject to this item.
 - 2. Carrier's maximum liability shall not exceed 50 cents per pound per package or \$10,000 per incident, whichever is lower.
 - B. When Consignor or Consignee requests excess liability coverage for used or reconditioned articles exceeding 50 cents per pound per package and describes the articles as used or reconditioned on the original Bill of Lading:
 - 1. Apply \$1.93 per pound per package, subject to a minimum charge of \$318.00, in addition to 100% of Customer's otherwise applicable charges as published in tariffs subject to this item.
 - 2. Consignor or Consignee will indicate on the original Bill of Lading (Carrier's form) in the designated area under Note 2 that excess liability coverage of \$4.50 per pound per package has been requested for the used or reconditioned articles. When combined with the standard maximum liability of \$0.50 per pound per package, the total allowable coverage, including the purchased excess liability coverage, shall be \$5.00 per pound per package. If Consignor or Consignee is using a Bill of Lading form where no designated area is provided, Consignor or Consignee shall indicate on the original Bill of Lading in the description of articles section: "Excess liability coverage requested in the amount of \$4.50 per pound per package."
 - 3. In no event shall Carrier's maximum liability for used or reconditioned articles exceed the actual value or \$5.00 per pound per package (including excess liability coverage), whichever is less, with a maximum of \$10,000 per incident.
 - C. In all cases, the weight of packaging and/or shipping container, pallets, skids, and the like shall **not** be included when determining excess liability coverage or Carrier's maximum liability. Additional liability coverage **is not and will not be considered as insurance for the cargo**.
- 7. Application of this paragraph is only while the shipment is in Carrier's possession within points within the U.S. and cross-border shipments between the U.S. and Canada. Unless excess liability coverage is requested for **new** articles and so noted as outlined in paragraph 8 herein, Carrier's maximum liability shall be the actual cost of goods supported by certified copy of original invoice not to exceed \$25.00 per pound per package or \$100,000 per incident, whichever is lower. In all cases, the weight of packaging and/or shipping container, pallets, skids, and the like shall **not** be included when determining Carrier's maximum liability.
- 8. When Consignor or Consignee requests excess liability coverage for new articles exceeding \$25.00 per pound per package, the following charges and provisions will apply:
 - A. Consignor or Consignee will indicate on the original Bill of Lading (Carrier's form) in the designated area under Note 2 the amount of the excess liability coverage requested for the new articles, not to exceed a maximum of \$25.00 per pound per package. When combined with the standard maximum liability of \$25.00 per pound per package, the total allowable coverage, including the purchased excess liability coverage, shall be \$50.00 per pound per package. If Consignor or Consignee is using a Bill of Lading form where no designated area is provided, Consignor or Consignee shall indicate on the original Bill of Lading in the description of articles section: "Excess liability coverage requested: (total amount of excess coverage requested in dollars per pound, not to exceed a maximum of \$25.00 per pound per package)."
 - B. Charges for excess liability coverage will be assessed based on 3% of the requested excess liability coverage, subject to a minimum charge of \$139.00.
 - C. In no event shall Carrier's maximum liability for new articles exceed the actual value of the articles or \$50.00 per pound per package (including excess liability coverage), whichever is less, with a maximum of \$100,000 per incident. In all cases, the weight of packaging and/or shipping container, pallets, skids, and the like shall **not** be included when determining excess liability coverage or Carrier's maximum liability.

	 Carrier agrees to spot or drop trailers or vehicles at Consignee's place of business for the purpose of Consignee to complete the unloading process. Consignee agrees it will not utilize Carrier's equipment for any use other than the express purpose of Item 578 herein. Upon receipt of the trailer, the trailer and its contents become the responsibility of Consignee. Precautions must be taken as necessary to protect the equipment and its contents from theft, damage, or other hazards. At all times while Carrier equipment is in Consignee's possession, Consignee shall maintain a custodial inventory of Carrier equipment and immediately notify Carrier in the event any equipment is unaccounted for, lost, stolen, or otherwise missing. When Consignee fails to report to Carrier's local service center that equipment is empty and available to Carrier for removal, it will be subject to detention rules and charges. Consignee will accept liability for any and all damages occurring to Carrier's equipment, or for the loss of Carrier's equipment, while in its physical possession, other than normal wear and tear or an act of God. Consignee will promptly reimburse Carrier for the cost of repairing or replacing such equipment. Carrier will provide sealed trailers with Carrier's seal number documented for security purposes. Failure to seal a load will not affect the terms and conditions outlined in this item. Carrier or its agent will provide two (2) copies of the delivery manifest that will serve as delivery receipt and a discrepancy reporting form for each shipment in the trailer. Upon receipt of the trailer, Consignee will sign and date the delivery manifest. Consignee's signature on the trailer manifest represents receipt of the trailer, contents, and condition of contents unknown. Carrier or its agent will retain a copy of the signed trailer delivery manifest to establish the date that the trailer was dropped for Consignee unloading. Consig

578 (cont'd)	e. Consignee will record all instances of short or damage on all copies of the delivery manifest next to the appropriate shipment data.
	When possible, a full description of the product damaged or short will be provided. Notice of any exception is to be faxed or emailed on the provided manifest to Carrier's delivery service center or agent.

	10. Shipments tendered to Consignee to be unloaded at their convenience are to be secured by Consignee in a manner to prevent theft. Carrier will not be held responsible for stolen product while in the possession of Consignee.

613 (cont'd)	2. The term "classified as a Cubic Capacity and Density shipment" refers to any shipment which is greater than 750 cubic feet and has an average density of								
	less than 4 pounds per cubic foot.								
	3. Average density is based on the total cubic feet of each package/handling unit of the shipment, whichever is greater. If, due to the nature of the package/								
	handling units or per instructions from Shipper/Consignee, Carrier is unable to load freight on top of the package/handling units or cannot stack like kinds								
	of package/handling units, a minimum height measurement of 84 inches will be used when determining the cubic footage of the package/handling units.								
	Unitized shipments exceeding 14 linear feet, or shipments of non-unitized freight that are loaded in such a manner that determining the total cube of each								
	package/handling unit is impractical, or shipments tendered in such a manner that they cannot be transferred, will have the cube calculated on the linear

GTE

1. The Close of Business Delivery service is Carrier's delivery, or attempted delivery, of a shipment in accordance with Carrier's normal transit standards in effect at the time of the shipment under the terms and conditions set forth in this Item 756. Close of Business Delivery commitment is considered 5:00 p.m. (local time), unless a later delivery time is acceptable by Consignee based on prior arrangements, but no later than 11:59 p.m. (local time). The "scheduled delivery commitment" is based upon the transit standards between any two ZIP codes and can be found on **fedex.com** or by contacting Customer Service at 1.866.393.4585.

- 2. **Eligibility:** Only shipments picked up by 5:00 p.m. local time are eligible for Close of Business Delivery service. Close of Business Delivery service covers all less-than-truckload (LTL) direct shipments originating from and destined to all points in the 48 contiguous states.
- 3. **Requesting service:** In order to request the Close of Business Delivery service, Customer must clearly and distinctly indicate "Close of Business" on the face of the Bill of Lading when the shipment is tendered to Carrier. To indicate Close of Business Delivery service using the Bill of Lading generator on **fedex.com**, Customer must select the "Close of Business" check box in the "Service Selection" section.
- 4. Charges for Close of Business Delivery service are the debtor's otherwise applicable net linehaul charges for that shipment (the "Standard Charges"), plus an upcharge of \$127.00, except for Customers shipping a FedEx Freight® Priority shipment rated per the current FXF PZONE or FXF 1000 rates scales, or the current FedEx Freight® box pricing, and shipped pursuant to the FXF 100 Series Rules Tariff.
- 5. Refund request due to missed service: In the event the shipment is not delivered at or by 11:59 p.m. (local time) on the scheduled delivery commitment, subject to certain exceptions set forth in paragraph 7 and upon request of the debtor only, all transportation charges related to the specific shipment will be refunded to Customer or credited to Customer's account at Carrier's option in the event the shipment is not delivered per the scheduled delivery commitment. To initiate a refund request, the debtor shall notify Carrier via email to expeditedrefund@fedex.com within fifteen (15) calendar days of the date of the scheduled delivery commitment. The email will include the pro number of the shipment in question, debtor's company name and contact information, along with a description of the service failure. If Customer's refund request is denied, an appeal may be submitted via email to expeditedrefund@fedex.com within five (5) business days of Carrier's original refund request denial. Exceptions generally include, but are not limited to, shipments where Shipper or Consignee delays or refused delivery for any reason.

Rule

759 VOLUME SERVICES CONT, TLS, TLX, CMUP, EXCL, VSUP, INTC

FedEx Freight Volume Services may be available, subject to equipment availability, for Carrier's direct service points in the contiguous United States and to or from Canada upon Customer request subject to the following terms and conditions:

- 1. The following types of service options are available under FedEx Freight Volume Services. Shipments moving under Volume Services will be based on space requested at time of quote, subject to minimum charges.
 - A. TLX: When this service option is requested, the service target will not be greater than twice (2 times) the stated FedEx Freight® Economy transit times for standard FedEx Freight® service. The applicable FedEx Freight Economy transit standards between any two ZIP codes can be found on fedex.com or by contacting Customer Service at 1.866.393.4585. When this service option is requested for Intra Center moves, the service target shall be next-business-day delivery.
 - B. TLS: When this service option is requested, the service target shall be the stated FedEx Freight Economy transit times for standard FedEx Freight service. When this service option is requested for Intra Center moves, the service target shall be next-business-day delivery.
 - C. **EXCL:** Exclusive use of pup/set or vehicle. This service option is not available for Intra Center moves.
 - 1. When Consignor/Consignee requests a pup/set or vehicle to be devoted exclusively to a shipment, or when the Bill of Lading or shipping instructions prohibit the breaking of locks or seals or the co-loading of additional freight, the following provisions will apply:
 - a. Request for such service shall be indicated by placing EXCL or Exclusive Use on the Bill of Lading.
 - b. Locks or seals applied to a pup/set or vehicle will not be broken. In the event a lock or seal has been removed, Carrier will re-lock or re-seal the pup/set or vehicle and notate the reason for removal. No freight will be added to the pup/set except at the instruction of Consignor/Consignee.
 - c. When the request for Exclusive Use is made after the shipment has been received by Carrier, Carrier will make a good-faith effort to intercept the shipment and convert it to an Exclusive Use shipment. Such request must be in writing and will be made part of the Bill of Lading contract. The requesting party must guarantee charges. Exclusive Use charges will apply from the point of origin to ultimate destination.
 - d. Exclusive Use shipments will not be permitted on stop-offs, split pickups, split deliveries, or when Section 7 of the Bill of Lading has been signed.
 - e. The provisions of this item may not be used to reduce rates, minimum weights, or total charges below the otherwise applicable charges on the shipment.
- 2. To request FedEx Freight Volume Services, Customer must provide details of the shipment, which may include the origin, destination, commodities, equipment type required, and pickup and delivery requirements. If the shipment is accepted by FedEx Freight Volume Services, the Volume Services quote shall have a specific quote number, setting forth the charges, terms, and conditions of the transportation services for either a single shipment or multiple shipments within an effective date range. The terms and conditions of the quote, including the agreed-upon charges and cargo limitation of liability, shall control and will supersede all other pricing programs, common or contractual.
- 3. For the Volume Services quote to apply, the specific quote number mentioned in paragraph 2 above must be shown in a prominent position on the original Bill of Lading. However,
 - A. If the quote number is missing from the original Bill of Lading and the shipment is still at the origin center, a corrected Bill of Lading with quote number added will be accepted and the quote will be applied; no upcharge will be added.
 - B. If the quote number is missing from the original Bill of Lading and the shipment is no longer at the origin center, a corrected Bill of Lading or Letter of Authority will be accepted by Carrier and the quoted TLS charges will be applied:
 - 1. If Customer is requesting the TLX option to be applied, the TLX rate will be applied and an upcharge of the difference between the TLS and TLX rate will also be applied so total charges are equal to the original TLS rate.
 - 2. If Customer is requesting the TLS option to be applied, the TLS quoted amount will be applied with no additional upcharge.
 - 3. When the TLS rate is not available, the Volume Services quote will be honored with a 50% upcharge to the original quoted rate, subject to a minimum upcharge of \$453.00 per shipment.
 - C. When Customer has two quote numbers for the same shipment, one is placed on the original Bill of Lading, and Customer requests to change to the other valid quote number, a Letter of Authority or corrected Bill of Lading will be accepted. The quote will be applied without an upcharge.
- 4. The type of services (TLX, TLS, or EXCL) and charges for FedEx Freight Volume Services shall be contained in the quote to be provided to Customer by FedEx Freight Volume Services prior to transportation. Such rates and charges will not be subject to any discounts, nor will any discounts contained elsewhere in this tariff or in any contract with FedEx Freight apply to the Volume Services program.
- 5. The following types of services are not available from FedEx Freight under the FedEx Freight Volume Services:
 - A. Government Bills of Lading.
 - B. Stop-offs.
 - C. Pickup or delivery at exhibition sites, tradeshows, or convention centers.
 - D. Residential pickup or delivery.
 - E. Protection from freezing.
 - F. COD.
 - G. Liftgate service.
 - H. Inside pickup or delivery

However, if the Volume Services shipment is an Intra Center shipment, the following types of services are available:

- A. Pickup or delivery at exhibition sites, tradeshows, or convention centers.
- B. Residential pickup or delivery.
- C. Protection from freezing.
- D. Liftgate service.
- E. Inside pickup or delivery.
- 6. Shipments accepted under FedEx Freight Volume Services, including Intra Center shipments, shall be limited to the actual value of the goods, lost or damaged and subject to a released value as set forth below:
 - A. TLX: For new product shall be \$2.00 per pound per package, the lowest released value provided in the current National Motor Freight Classification (NMFC), or \$10,000 per incident, whichever is less.
 - B. TLS and EXCL: For new product shall be \$25.00 per pound per package, the lowest released value provided in the current National Motor Freight Classification (NMFC); or \$100,000 per incident, whichever is less.
 - C. TLX, TLS and EXCL: \$0.10 per pound per package on any used, recycled or "for scrap" items, or for household goods.

Rule

759 (cont'd)

- 7. TLX and TLS services will apply only on shipments that can be lawfully loaded into a single trailer or a set of two trailers (each trailer not exceeding 28 feet in length). Any portion of the shipment exceeding the space parameters referenced on the quote could be subject to excess charges calculated at 150% of the Volume Services quote rate per foot or per pound, whichever one is greater. However, as a customer courtesy, if the difference in weight is less than 50 pounds greater than the weight on the Bill of Lading, no change in charges will occur.
- 8. If FedEx Freight is requested or required to provide load and count and/or unload and count services, such services will be subject to the additional load/unload charges. These charges will also apply in the event that FedEx Freight provides the following additional services:
 - A. Customer is responsible for any fines received and/or loading/unloading charges for labor used in reloading to correct axle or gross weight violations.
- 9. **Re-Delivery:** When a Volume Services shipment is tendered for delivery, and through no fault of Carrier such delivery cannot be accomplished, the following charge for each additional tender of delivery to the original destination points will apply:
 - A. \$201.00 per shipment when delivery location is within 15 miles of the delivering service center and an additional \$11.35 per mile for all miles that exceed the 15-mile radius.
 - B. Re-delivery charges will not apply on shipments picked up at original destination service center.
 - C. Any shipment transferred to a public warehouse shall be considered a re-delivery, subject to the provisions of this section. All charges accruing under this section must be paid or guaranteed to the satisfaction of FedEx Freight before the shipment will be re-delivered.
- 10. Storage: Will be subject to Item 910.
- 11. **Reconsignment, Diversion, Relinquishment:** Any request for reconsignment, diversion, or relinquishment must be made or confirmed in writing with FedEx Freight, and must be made, subject to verification by FedEx Freight, by a party that has authority to request the reconsignment, diversion, or relinquishment
 - A. When a shipment is at the origin center and is requested to be re-billed as a FedEx Freight® Priority or FedEx Freight® Economy shipment, the FedEx Freight Volume Services quote will be made null and void, and Customer's applicable pricing program will apply. The pickup date will be consistent with the date of re-billing.
 - B. When requested, charges will be re-quoted from the original Shipper to the service center of reconsignment/diversion/relinquishment.
 - C. When a shipment is at the origin center and is returned to Shipper or delivered to another carrier, a charge of \$427.00 will apply when the location is within 50 miles of the origin center. Shipment will be subject to an additional \$11.35 per mile for the pickup miles and \$11.35 per mile for the delivery miles for all miles that exceed the 50-mile radius.
 - D. When a shipment is at the origin center and relinquished to another carrier or to Shipper at the origin dock, a relinquishment charge of \$201.00 per shipment will apply, plus an additional \$360.00 per hour or fraction thereof, subject to a minimum charge of \$360.00 per loading and/or unloading per incident.
 - E. However, when a shipment is an Intra Center shipment at the origin center and relinquished to another carrier or to Shipper at the origin dock, a relinquishment charge per Item 820 paragraph 2 will apply.
 - F. If at any point between origin center and destination center the shipment is relinquished and cross-docked, loading/unloading charges of \$360.00 per hour, or fraction thereof, will apply, subject to a minimum charge of \$360.00 per loading/unloading per incident.
 - G. When a shipment is at the destination center and relinquished to another carrier or to Customer at the destination dock, a relinquishment charge of \$201.00 per shipment will be applied, plus an additional \$360.00 per hour or fraction thereof, subject to a minimum charge of \$360.00 per loading and/or unloading per incident.
 - H. When the destination point is changed and Carrier services both original and new destination points by different service centers, the reconsigned or diverted shipment, when requested, will be re-quoted by Volume Services from the current service center location to new Consignee. Intra Center will not be offered. Shipment will be quoted as LTL or as a Volume Services shipment, if shipment meets minimum requirements.
 - I. When the destination point is changed and Carrier services both original and destination points by the same service center:
 - 1. Prior to tender for delivery, a reconsignment charge of \$201.00 per shipment will apply unless the original shipment was an Intra Center shipment; then a reconsignment charge of \$139.00 per shipment will apply.
 - 2. After tender for delivery, a reconsignment charge of \$731.00 per shipment will apply when delivery location is within 15 miles of the delivering service center. Shipment will be subject to an additional \$11.35 per mile for all miles that exceed the 15-mile radius. However, if the original shipment was an Intra Center shipment, then the lesser of \$11.35 per mile or \$19.88 per cwt., subject to a minimum charge of \$201.00 and a maximum charge of \$2,080.00 per shipment, plus linehaul charges from origin to destination will apply.
 - J. Carrier will make a diligent effort to execute a request for reconsignment, but will not be responsible if such service is not executed.
- 12. Loading/Unloading: Pricing and terms of services related to FedEx Freight Volume Services assume that loading and unloading will be performed by Consignor or Consignee respectively. Should Carrier be required to perform loading or unloading services at origin or destination, an additional charge of \$360.00 per hour or fraction thereof, subject to a minimum charge of \$360.00, for loading and/or unloading will apply per incident.
- 13. Handling: Pricing and terms of services related to FedEx Freight Volume Services assumes freight is palletized and/or able to be moved via forklift. Should Carrier have to cross-dock shipment and freight is found to not be able to be moved with forklift, shipment will be subject to handling charges as outlined in Item 565.
- 14. Detention: Will be subject to Item 500.
- 15. Service Provided During Non-Business Time: Will be subject to Item 753.
- 16. These terms and conditions may not be modified, changed, or amended except by express written consent of the legal department of FedEx Freight.
- 17. Carrier reserves the right to modify, suspend, or cancel Volume Services at its sole discretion at any time without prior notice. Any notices by Carrier of any amendment, suspension, or cancellation shall be provided via Carrier's applicable company website, which shall be the controlling version of the program's terms and conditions.
- 18. Optional and additional services requested by Shipper, Consignee, or Third Party are not included in the Volume Services quoted price, unless noted in the comments section of the quote. Shipments will be subject to the additional charges by FedEx for such requested services. For optional and additional service fees and charges, refer to the FXF 100 Series Rules Tariff, which is available at **fedex.com**.

MONEY-BACK GUARANTEE

(Unless otherwise provided, this item is not applicable to shipments using FedEx Freight® Economy service.)

- 1. For shipments tendered on or after September 15, 2003, upon request and subject to the terms and conditions of this Money-Back Guarantee, Carrier will, at its option, refund to Customer or credit Customer's account the transportation charges, including optional or additional service fees and charges requested by the debtor at the time of service and fuel surcharges, if Carrier fails to deliver a complete shipment by 11:59 p.m. (local time) on the scheduled delivery date, subject to certain exclusions. After 5:00 p.m. (local time), deliveries are late only when Consignee's receiving department is closed.
- 2. **Eligibility:** The Money-Back Guarantee covers all less-than-truckload (LTL) FedEx Freight® Priority direct shipments originating from and destined to all points in the 48 contiguous United States that are rated per the current FXF PZONE or FXF 1000 rates scales, or the current FedEx Freight® box pricing and are shipped pursuant to the current FXF 100 Series Rules Tariff. Shipments in lanes subject to frozen tariffs or rates, or foreign tariffs or rates, are ineligible for the Money-Back Guarantee.
- 3. **Pickup:** Shipments picked up no later than 5:00 p.m. local time (check with the local service center, as cut-off times may vary by shipping location) will be delivered by the scheduled delivery date. Money-Back Guarantee does not include missed pickups. The scheduled delivery date will be based on the date the pickup actually occurs and not on the date that the pickup was scheduled to occur.
- 4. **Deliveries:** The scheduled delivery date for limited-service ZIPs reflects the day(s) of the week delivery service is planned (i.e., daily service to limited-service points is not available—go to **fedex.com** for transit times on limited-service points). Deliveries requiring appointments are eligible for the Money-Back Guarantee if the appointment is set for the scheduled delivery date. Carrier does not, however, guarantee an appointment delivery time for shipments on the scheduled delivery date. For a complete list of limited-service ZIPs, access **fedex.com/content/dam/fedex/us-united-states/services/limitedservicezips.pdf**.
- 5. Money-Back Guarantee filing process: Customer may request a refund for Carrier's failure to meet the scheduled delivery date by submitting a request through Carrier's website or voice response unit (VRU). Customer's complete and accurate request must be submitted to Carrier within fifteen (15) calendar days after the date of invoice. If Customer paid by credit card, cash, check, or money order, the request must be made within fifteen (15) calendar days from the ship date. If Customer's refund request is denied, Customer may appeal the denial by submitting an appeal request through Carrier's website or VRU within five (5) business days immediately following the date of Carrier's original denial of the refund request.
- 6. Limitation: At the sole discretion of FedEx, the Money-Back Guarantee may not be honored when the request is made by, or the information utilized to determine the status of the shipment is determined by, a third party other than the payer of the charges.
- 7. **Refunds and credits**: If Carrier determines that Customer is entitled to a refund, Carrier will issue a refund or credit to the debtor only. If Customer has paid the invoice, Carrier will issue a refund to Customer for the applicable transportation charges. If Customer has not paid the invoice, Carrier will adjust Customer's invoice to indicate that no charges are due for the specific service failure. Carrier will not issue refunds or credits to third parties and/or agencies. Cash, non-credit, and credit-hold customers are eligible for the Money-Back Guarantee. However, if Carrier determines that Customer is entitled to a refund, Carrier will not provide an automatic refund. Instead, Carrier will call Customer to apply the refund to Customer's credit, if applicable.
- 8. Exclusions: The Money-Back Guarantee does not apply to the following shipments:
 - A. Originating from or destined to any points outside the contiguous United States.
 - 1. To or from the states of Alaska and Hawaii and the commonwealth of Puerto Rico, Guam, U.S. Virgin Islands, and other U.S. territories; to or from Canada, Mexico, the Caribbean, Central/South America, Europe, and Asia.

If the failure to meet the scheduled delivery date is caused by events beyond Carrier's control, including, but not limited to, acts of God; acts or omissions of public authority; riots, strikes, or labor disputes, including those of third parties; government regulations, orders, or requirements; disruption in ground transportation as a result of weather or other causes; acts of public enemies or acts of terrorism; disruption or failure of communications or information systems; or acts or omissions of Shipper, Consignee, or Owner of goods or any person or entity other than Carrier.

Rule Item **760** (cont'd) 9. The Money-Back Guarantee does not cover shipments delivered damaged. Customer must utilize Carrier's claims process to file claims for damaged items. The Money-Back Guarantee does, however, cover the transportation charges associated with damaged items delivered beyond the scheduled delivery date. 10. The remedies provided in this Item 760 are the sole and exclusive remedies for any claims arising specifically under the Money-Back Guarantee. In no event shall Carrier be liable for any consequential, incidental, special, or economic loss or damages resulting from its failure to meet the scheduled delivery date, including but not limited to loss of income or profits, regardless of whether or not Carrier knew or should have known that such damages might have been incurred. 11. These terms and conditions shall control in the event they directly conflict with the provisions contained in any applicable contract or other applicable tariff item. 12. Carrier reserves the right to modify, suspend, or cancel the Money-Back Guarantee at its sole discretion at any time without prior notice. Any notices by Carrier of any amendment, suspension, or cancellation shall be provided via Carrier's applicable company website, which shall be the controlling version of the program's terms and conditions. 761 **CUSTOM DELIVERY WINDOW** 1. Custom Delivery Window is Carrier's delivery, or attempted delivery, of a shipment within the delivery date window requested by Shipper, in accordance with Carrier's normal transit standards in effect at the time of the shipment under the terms and conditions set forth in this Item 761. The four levels of Custom Delivery Window service are delivery on a specific date, before a specific date, after a specific date, or within a date window. The first date in the delivery date window requested by Shipper must fall on or after Carrier's standard delivery date. Eligibility: Shipments picked up before 5:00 p.m. local time for direct point service are eligible for Custom Delivery Window service on or after standard delivery date. The scheduled delivery commitment is based on the date the pickup actually occurs before 5:00 p.m. (i.e., does not cover missed pickups). If 5:00 p.m. or after, it will be based on the following day normal transit standards. 3. Requesting Custom Delivery Window service: Customer must clearly and distinctly indicate "Custom Delivery Window" along with delivery date window specifications (i.e. "on date," "after date," "before date," or "between dates") on the face of the Bill of Lading when the shipment is tendered to Carrier. Custom Delivery Window will not apply to delivery dates that are prior to Carrier's normal transit standards. 4. Charges for Custom Delivery Window service are the debtor's otherwise applicable net linehaul charges for that shipment (the "Standard Charges"). 5. Custom Delivery Window does not carry any guarantee of service. Attempted delivery of the shipment will be considered fulfillment of the Custom Delivery Window request. Appointments arranged by Consignee override Custom Delivery Window assignment for appointments set for a date beyond the scheduled service date. 6. Storage charges: Storage charges, as defined in Item 910, will begin at 12:01 a.m. the second business day following standard transit date, based on normal transit standards. Storage charges apply to business days only. If the first date in the Custom Delivery Window request is within 2 business days of standard transit date, then no storage charges will apply. Storage charges will accrue to the debtor of the freight bill. 7. Exclusions to Custom Delivery Window: Custom Delivery Window does not apply on the following shipments: A. Originating from or destined to any points outside the contiguous United States, Canada, or Mexico. B. Delayed due to missing, incomplete, or inaccurate documentation, labeling, or packaging. C. Requiring special equipment for delivery, including liftgate, forklift, crane, or other mechanical devices. D. Shipments that are destined for will-call points. E. Shipments for consolidation or distribution. Involving Volume Services, brokerage, spot market pricing, or other special pricing programs. G. Held for inspection or detained by governmental regulation or mandate, including customs clearance. H. COD. I. Shipments moving on government Bills of Lading or on shipments where the actual freight charges are to be paid by the government. 8. If questions arise over Carrier failure to deliver, contact Customer Service at 1.866.393.4585. 9. Carrier reserves the right of recourse against the requestor of the service should Carrier be unable to collect any applicable Custom Delivery Window charges from the debtor. 10. In no event shall Carrier be liable for any consequential, incidental, special, or economic loss or damages resulting from its failure to meet the scheduled delivery commitment, including but not limited to loss of income or profits, regardless of whether or not Carrier knew or should have known that such damages might have been incurred. 11. These terms and conditions shall control in the event they directly conflict with the provisions contained in any applicable contract or other applicable tariff item. 12. Carrier reserves the right to modify, suspend, or cancel Custom Delivery Window at its sole discretion at any time without prior notice. In such cases, only the Standard Charges will apply. Any notices by Carrier of any amendment, suspension, or cancellation shall be provided via Carrier's applicable company website, which shall be the controlling version of the program's terms and conditions. 13. Any Custom Delivery Window request to deliver on a non-business day as defined in Item 115 will be subject to charges as stated in Item 753. 765 **PRECEDENCE OF RATES** (Exception to Item 765 of the NMF Series) 1. The provision of Item 765 of the NMF Series will apply and in addition: Unless otherwise provided, when a pricing program is published in this tariff or in any other tariffs published by Carrier, such pricing program will be applied in the following order or precedence: A. For Outbound Prepaid Shipments: 1. A pricing program published for the account of Shipper will take precedence over all other pricing programs. B. For Outbound Collect Shipments: 1. An inbound collect pricing program published for the account of Consignee will take precedence over all other pricing programs. 2. If there is no inbound collect pricing program published for the account of Consignee, the outbound collect pricing program published for the account of Shipper will apply, unless Shipper's pricing program does not apply on outbound collect shipments.

Rule Item C. For Inbound Collect Shipments: **765** (cont'd) 1. The inbound collect pricing program published for the account of Consignee will take precedence over all other pricing programs. 2. If there is no inbound collect pricing program published for the account of Consignee, the outbound collect pricing program published for the account of Shipper will apply, if applicable. D. For Third-Party Shipments (applies when Bill of Lading indicates a party other than Shipper, Consignee, or Shipper or Consignee's freight payment processor as Payor of the freight charges): 1. A pricing program published for the account of Third-Party Payor will take precedence over all other pricing programs. 2. A Third-Party Payor pricing program will apply only when Third-Party Payor is neither Shipper nor Consignee. 3. All Third-Party Payor shipments must be prepaid. 4. When the Bill of Lading shows freight terms as prepaid and instruction for Third-Party Billing, and Third-Party Payor is the same as Consignee or Consignee's freight payment processor, the terms will be changed to "Collect," billing the Consignee or Consignee's freight payment processor. E. If an optional or additional service is requested by means other than on the original Bill of Lading, the optional or additional service fees and charges will be rated according to the requestor's pricing program. If the requestor does not have a published pricing program, applicable charges for such requested optional or additional service fees and charges will be those as stated in the FXF 100 Series Rules Tariff. 2. For the purpose of applying this item, the following terms are defined as designated: A. Shipper or Consignor: The party shown on the Bill of Lading at time of pickup as Shipper of the goods. B. Consignee: The party shown on the Bill of Lading at time of pickup as Consignee of the goods. Third-Party Payor: The party shown on the Bill of Lading as Payor of the freight charges who is neither Shipper nor Consignee, nor the freight payment processor of either Shipper or Consignee. Freight Payment Processor (commonly referred to as "Bill-To"): A bank or freight payment agency designated to pay the freight charges on behalf of Shipper, Consignee, or Third-Party Payor. E. Pricing Program: Any program created to apply in lieu of Carrier's full actual class rates and charges as published in FXF 100 Series Rules Tariff. 770 **FOOD SHIPMENTS** 1. Bill of Lading: Transportation of food items must be clearly identified on the Bill of Lading. 2. Packaging: Customer will only tender and Carrier will only accept food items packaged in a fully enclosed container as defined by the Food and Drug Administration and that does not require any environmental or temperature control for food safety purposes. 3. Liability: Customer shall, at its cost and expense, comply with the terms of this rules tariff and all applicable federal, state, local, and international laws, rules, and regulations pertaining to its shipments and shall be responsible for all costs, liabilities, delays, fines, and expenses caused by, resulting from, or otherwise associated with any noncompliance by Customer or Customer's shipments with this rules tariff or any such laws, rules, or regulations. Customer shall also be responsible for Carrier's charges pertaining to any services performed by Carrier at Customer's request for compliance with this rules tariff or any such laws, rules or regulations. Refusal of shipment: In the event of refusal of a shipment by Consignee or in the event that Carrier, for any reason, is unable to deliver a shipment, Carrier shall notify Customer and storage charges will apply as defined in Item 910. Should Customer fail to provide Carrier with disposition of the refused shipment within two (2) business days from Carrier's notification, Customer agrees that Carrier shall have the right to dispose of the refused shipment at its sole discretion. C. Carrier will transport small-arms ammunition when packed and labeled in compliance with local, state, and federal law, and the Hazardous Materials section of the FedEx Service Guide. Ammunition is an explosive and must be shipped separately as hazardous materials or limited quantities. Shipper agrees not to ship loaded firearms or firearms with ammunition in the same package or on the same pallet. 3. Hazardous Materials: A. All shipments containing hazardous materials must be properly classified, described, packaged, marked, labeled, and in proper condition for transportation according to applicable regulations and requirements. Actions to determine actual freight characteristics may include depending on the freight characteristic in question:
	A. Opening of packages to inspect the contents to determine proper classification.B. Verification of gross shipment weights.C. Verification of actual or declared density.
	 D. Collection of other sufficient evidence necessary to verify whether or not the shipment is correctly described. 2. The increased weight will be charged at the highest rated commodity in the shipment. Deficit weight, if any, will be charged per NMF 100 series. Verification record may include individual shipment weight, or reweigh certificate, or other shipment record. Carrier will make a copy of the written or electronic weight verification available to Shipper or Consignee upon request.
	3. Density will be determined by the cube utilized as determined by the methods contained in Item 110, Section 8 of the National Motor Freight Classification (NMF 100) series and the weight shown on Shipper's Bill of Lading, unless Carrier determined the weight on the Bill of Lading to be in error or Shipper provides documentation that the weight was in error.
981	WEIGHT (REWEIGH) AND FREIGHT (INSPECTION) VALIDATION 1. 998	LIMITATIONS ON LEGAL ACTION 1. Customer agrees that Customer will not sue Carrier as a class plaintiff or class representative, join a class as a member, or participate as an adverse party in any way in a class action lawsuit against Carrier. However, nothing in this paragraph limits Customer's rights to bring a lawsuit as an individual plaintiff.
	2. Any right Customer might have to damages, refunds, credits, recovery of reliance interests, disgorgement, restitution, injunctive relief, declaratory relief, or any other legal or equitable relief whatsoever against Carrier under any cause of action arising from the transportation of any package pursuant to this tariff shall be extinguished unless Customer first complies with all applicable notice periods and requirements in applicable tariffs. Timely and complete compliance with such notice periods and requirements is a contractual condition precedent to the right of any relief whatsoever, and Customer must plead compliance with those conditions precedent on the face of the complaint filed against Carrier. Carrier cannot be considered to have breached any obligation to Customer unless or until Carrier wrongfully denies a claim submitted pursuant to the notice periods and requirements contained in this tariff. Finally, Customer is required to comply with applicable notice periods and requirements even if Customer believes that such compliance will not result in relief from Carrier or if Customer lacks knowledge regarding whether such compliance will result in relief from Carrier.
	 To the extent that any court finds that state rather than federal law applies to any provision of this contract, the controlling law is the substantive law of the state in which the shipment at issue was tendered to Carrier. The performance of any services does not make Carrier an agent of Shipper or any Third Party for any purpose. If any provision in this Item 998 is held to be invalid, illegal, or unenforceable, either legislatively or judicially, such provision will be severed here from and the remainder of this Item 998 will continue to be valid and enforceable.
