

Peak surcharges and fees for international services

Updated Dec. 16, 2022

We announced a surcharge on all FedEx Express® and TNT international parcel and freight shipments beginning April 6, 2020.

We implemented this surcharge due to the various COVID-19 containment restrictions issued in countries around the world. Those restrictions are disrupting the global supply chain. As a result, air cargo capacity is limited, and we are incurring incremental costs as we adjust our international networks to best deliver much-needed goods and services in this constrained environment.

This surcharge does not apply to domestic shipments.
