

The economical solution to boost your business

FedEx Ground® Economy is a reliable, cost-effective way to ship low-weight, non-urgent packages to U.S. residential customers.

Why it's for you

It's an ideal solution if you're an online retailer, cataloger, fulfillment house, or direct marketer looking for a convenient way to grow your business with residential customers.

How it helps you

Provides full U.S. residential coverage. By utilizing the entire FedEx Ground® delivery network, FedEx Ground Economy provides efficient package delivery to all U.S. residential addresses.

Provides efficient delivery at a low cost. A variable 2–7 day transit time lets FedEx® take advantage of efficiencies throughout our network so you can take advantage of lower cost shipping that you can count on.

Complete 24-hour shipment visibility. You can track packages on **fedex.com** to see shipment status, the estimated delivery date, and other essential information.

Service Specifics

Coverage: Full U.S. residential.

Service days: Monday through Sunday.*

Transit times: Typically 2 to 7 business days within the contiguous U.S., based on the final destination ZIP code. (Longer transit times to destinations outside the contiguous U.S.)

Package specifications: Maximum weight is 70 lbs.; maximum length and girth is 130 inches. The ideal package weight is 1–10 lbs.

Shipment-status tracking: Full package status visibility—including estimated delivery date—on **fedex.com** or by calling **1.800.GoFedEx/1.800.463.3339** (say “track a package”).
